For:	Textured Composite Material		

RESPONSE TO RESTRICTION/SPECIES REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

March 2, 2005

Sir:

In response to the Restriction/Species Requirement mailed on February 3, 2005, please enter the following comments in the above-identified application.

REMARKS

Applicant confirms the election made without traverse to prosecute claims 1-62 directed to a textured composite material.

On page 3 of the Office Action, the Examiner sets forth a further Election of Species Requirement with respect to the elected Group I.

In particular, the Examiner requests that the applicant elects one of Species 1 directed to textured composite material comprising a fibrous outer layer and an adhesive layer, encompassing claims 1-22 and 38-62, or Species 2 directed to a textured composite material further comprising a fibrous outer layer, an adhesive layer, and a backing layer, encompassing claims 23-37.

The applicant elects, without traverse, Species 1, textured composite material comprising a fibrous outer layer and an adhesive layer, as the species for examination. With respect to this election of species, the claims that read upon this election include claims 1-22 and 38-62.

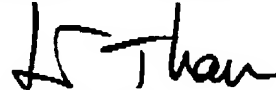

U.S. Patent Application No.10/611,470

The applicant believes that Species 2 can also be examined at this time, since claims 23-37 are dependent directly or indirectly on claim 1, which is generic to all species.

No fee is due for this submission. However, if there are any fees including extension fees due in connection with this response, please charge the fees to Deposit Account No. 50-1980.

Date 03/02/2005

Respectfully submitted,

H.T. Than, Esq.

(Reg. No. 38,632)
